1 Introduction

- 1.1 The Department of the Environment (“DOE”) is required under the Local Government Pension Scheme Regulations (Northern Ireland) 2014 (‘the 2014 Regulations’) (SRNI 2014/188), to issue actuarial guidance on the calculation of additional pension to a retiring member from any additional voluntary contributions that are not taken as cash or used to secure an annuity with an insurance company.
- 1.2 The remainder of this introduction contains:
- > details of the implementation and future review of this guidance, and
 - > statements about third party reliance and liability
- 1.3 In the remainder of this note:
- > Section 2 describes the calculation of the pension deriving from the member’s AVCs
 - > Section 3 describes the benefits purchased
 - > Sections 4 and 5 set out the factors applicable where retirement is in normal and ill health respectively
 - > Appendix A quotes the relevant statutory references
 - > Appendix B sets out some important limitations.
- 1.4 The Government Actuary’s Department (GAD) seeks to achieve a high standard in all our work. Please go to our [website](#)¹ for details of the standards we apply.

Implementation and Review

- 1.5 DOE is required to consult GAD before issuing actuarial guidance under the 2014 Regulations [Regulation 2(3) of the 2014 Regulations].
- 1.6 As part of this consultation DOE has asked GAD to recommend actuarial guidance in respect of the regulations detailed below. This document forms GAD’s recommendation for the actuarial guidance required by these regulations.
- 1.7 This note has effect only when this guidance is issued by DOE to the Northern Ireland Local Government Officers’ Superannuation Committee (NILGOSC) in accordance with Regulation 2(3) of the 2014 Regulations, and is subject to the implementation instructions provided at that time.
- 1.8 This guidance replaces the previous guidance dated 21 March 2012 (together with the revised factors issued on 26 January 2015) but uses the same assumptions as were used in deriving the revised factors.

¹ <https://www.gov.uk/government/organisations/government-actuarys-department/about/terms-of-reference>

- 1.9 This guidance has been written for pension administrators and assumes some knowledge of general pension terminology, and some familiarity with retirement calculations for the Local Government Pension Scheme. Any questions concerning the application of the guidance should, in the first instance, be referred to DOE.
- 1.10 The factors contained in this note are taken from other guidance prepared by GAD, which will be reviewed periodically. This will depend on external circumstances, for example when the LGPS cash equivalent transfer value basis is reviewed; when changes in the actuarial assumptions adopted for other scheme factors take place; or following each triennial cycle of future valuations of the LGPS.

Use of this note

- 1.11 This note has been prepared for DOE and can be relied upon by them. We are content for this note to be released to third parties, provided that:
- > it is released in full;
 - > the advice is not quoted selectively or partially; and
 - > GAD is identified as the source of the note.
- 1.12 Third parties may wish to seek their own actuarial advice where appropriate. GAD has no liability to any person or third party for any act or omission taken, either in whole or in part, on the basis of this note.

Third party reliance

- 1.13 When issued by DOE in accordance with paragraph 1.7 above, this note should be used as the actuarial guidance required under the regulations cited. Other than for this purpose, no person or third party is entitled to place any reliance on the contents of this note, except to any extent explicitly stated herein.

2 Calculation of additional pension

- 2.1 The tables included in this note provide the amounts of additional pension payable to a member for each £100 of accumulated AVCs, according to the member's age at the date the member retires having become entitled to the immediate payment of retirement benefits.
- 2.2 Table 1 applies to members who retire having become entitled to the immediate payment of retirement benefits under Regulation 31 of the 2014 Regulations. Table 1 factors for members under age 55 will be provided by GAD on request.
- 2.3 Table 2 applies to members who retire having become entitled to an ill-health pension under Regulation 36 of the 2014 Regulations. Table 2 factors for members under age 30 will be provided by GAD on request.
- 2.4 Separate factors are provided for men and women.
- 2.5 An example calculation is provided below:

Example: Retirement in Normal Health

Member Details

Date of Birth	18 May 1951
Sex	Male
Normal Pension Age	65
Date of election	30 June 2015
Amount of AVC fund	£20,000.00
Age at date of election	64 years 1 month
Amount of additional annual pension for every £100 of AVCs (from Table 1)	£5.74
Amount of additional annual pension for an AVC fund of £20,000.00	$£20,000.00 \times 5.74 / 100 = £1,148.00$ pa

3 Benefits purchased from AVC funds

- 3.1 The additional pension is payable from the date used in the calculation. Increases after the date of commencement should be granted at the same time and at the same rate as the pension increases on the rest of the member's scheme pension.
- 3.2 The benefits provided to a member awarded additional pension are not fully specified in the regulations. However, DOE has confirmed the details of additional pension benefits described below.
- 3.3 A member will receive the following benefits:

Own benefits

- 3.4 The total pension awarded will be increased by the rate of additional pension purchased.
- 3.5 The additional pension may not be commuted for cash. If a member wishes to take some of his AVCs as a lump sum that part of the fund should not be converted to scheme pension.
- 3.6 On death in retirement before age 75 a lump sum is payable equal to ten times the annual rate of additional pension in payment before death, less the amount of additional pension already paid.
- 3.7 The additional pension is increased in accordance with the Pensions Increase Acts.

Dependants' benefits

- 3.8 The following additional benefits will be paid on the death of the member.
- 3.9 The additional spouse, civil partner or nominated cohabiting partner's pension is 30.625% (ie 49/160ths) of the rate of additional member's pension purchased, in accordance with Regulation 52 of the 2014 Regulations.
- 3.10 The child's additional pension is 15.3125% of the member's additional pension if there is one eligible child. If there are two or more eligible children then the total children's pension awarded is 30.625% of the member's additional pension and is shared equally between the eligible children, in accordance with Regulation 54 of the 2014 Regulations.
- 3.11 If there is no pension payable to an eligible spouse, civil partner or nominated cohabiting partner, then each additional child's pension is increased to a level one-third higher than that shown in 3.10 above, in accordance with Regulation 55 of the 2014 Regulations.
- 3.12 The dependant's additional pension is increased before it comes into payment on the same basis as applies to the member's pension. Once in payment, the dependant's additional pension is increased in accordance with the Pensions Increase Acts.

Early payment of retirement pension on ill-health grounds: active members

36.—

(1) Where an active member who has qualifying service for a period of two years or more ceases local government employment on the grounds that—

- (b) the member, as a result of ill-health or infirmity of mind or body, has a reduced likelihood of being capable of undertaking any gainful employment before reaching normal pension age,

the Committee may, at the request of the employing authority, determine that the member's retirement pension comes into payment before the member's normal pension age in accordance with this regulation.

Survivor benefits: partners of pensioner members

52.—

(1) If a pensioner member (other than a pensioner member where the pension the member was in receipt of was derived from a pension credit) dies leaving a surviving spouse, civil partner or nominated co-habiting partner, that person is entitled to a pension which shall come into payment on the day following the member's death.

...

(3) The opening balance of the survivor member's pension account is the amount of pension payable to the survivor calculated in accordance with paragraph (4).

(4) The amount of a pension payable under paragraph (3) is calculated by adding together the pension that the member would have been entitled to draw on the date of the member's death if—

...

(3) The children's pension shall be calculated in accordance with regulation 54 or regulation 55.

Survivor benefits: children of pensioner member where pension is payable to partner of pensioner member

54.—
