Circular 03/2013
5 March 2013

Dear Colleagues

Annual Return Specification for 31 March 2013

It's that time of year again! Please take time to read this Circular now and ensure that you can provide your annual return in the correct format by **31 May 2013**. In particular, please read **Section 3** regarding Additional Voluntary Contributions as, following changes in HMRC legislation and the introduction of the new annual allowance regime, this additional information is now required every year.

The Registered Pension Schemes (Provision of Information) (Amendment) (No. 2) Regulations 2011 now require employers to provide relevant information, e.g. pensionable pay, changes in contractual hours etc. to the pension scheme by 6 July following the end of the tax year. This is to enable the Scheme to issue a pensions savings statement to members who are affected by the annual allowance regime.

Please note we are unable to accept any manually completed annual returns.

1. Format of Annual Return

Most employing authorities used either the pre-populated spreadsheet provided by NILGOSC or a text file (.txt) to remit their annual return data last year. This resulted in a significant improvement in the accuracy of the data which NILGOSC received.

We are only able to accept the 2012/13 annual return in one of three formats:

- A text file
- A pre-populated spreadsheet
- An alternative spreadsheet that conforms to our pre-populated format.

The only format of spreadsheet that can be accepted will be available for download from the Annual Return Information in the Employers' section of our website - Preformatted Spreadsheet & Reconciliation Form.

1.1 Text File

A text file is a sequence of characters set out in a pre-determined format. This is generated by a direct export from an employer's software system and removes the need for much of the manual intervention required in an annual return data submission.

The key advantages of remitting your annual return data by text file are:

- being system generated less time is required for manual input.
- less manual input increases the accuracy of your data submission.
- increased accuracy of your data submission should reduce the number of annual return queries coming back to you.
- quick turnaround times for both you and NILGOSC.

The text file data submission is therefore the preferred choice of NILGOSC and many of our larger employers. However, I do appreciate that, due to software constraints, this method is not possible for all employers.

Appendix 1 sets out the specification for the format required.

If you have used this method in previous years and have questions on the format then please telephone our IT department on 0845 308 7345 or email annualreturns@nilgosc.org.uk for assistance.

If you have not submitted your annual return data by text file in previous years and you are now interested in using this method then please call or email our IT Department as above.

1.2 Pre-Populated Spreadsheet

A pre-populated spreadsheet is issued, upon request, by NILGOSC to employers and lists all of your employees, including their relevant details, as held on our records e.g. part-time hours worked.

Appendix 2 sets out the format of the pre-populated spreadsheet in terms of the data that will be supplied to you and the data that you are required to complete for each employee.

The main advantage of this method is that it acts as a reconciliation tool thus requiring much less time to complete the requested data than submitting your return by an alternative spreadsheet.

The deadline for requesting a pre-populated spreadsheet is strictly **19 April 2013**. Requests should be made to annualreturns@nilgosc.org.uk.

If you have not submitted your annual return data by this method in previous years and you are now interested in using this method then please email our IT department as above.

Things to remember about pre-populated spreadsheets:

- They will be password protected so you may need to check that your email system can accept encrypted attachments.
- You should receive your pre-populated spreadsheet within two weeks of the request date. Please contact our IT department if you do not receive your spreadsheet within two weeks.
- Pre-populated spreadsheets should be submitted to annualreturns@nilgosc.org.uk **no later than 31 May 2013**. If you do not receive an acknowledgement within 48 hours, please contact our IT department.

1.3 Alternative Spreadsheet

The only alternative format acceptable will be available for download from the Employers' section of our website. This spreadsheet takes the format of the pre-populated spreadsheet without the benefit of the data which NILGOSC holds for your employees, being supplied.

Alternative spreadsheets should be submitted to annualreturns@nilgosc.org.uk **no later than 31 May 2013**. If you do not receive an acknowledgement within 48 hours, please contact our IT department.

2. Additional Voluntary Contributions

In line with the aforementioned new legislation, it is now essential that we receive the amounts of Additional Voluntary Contributions paid by individual members every year.

- For those authorities submitting a pre-populated spreadsheet, these amounts must be shown in column AD for members paying to Prudential and column AE for members paying to Equitable Life.
- For the authorities who use the alternative spreadsheet, please ensure the AVCs are recorded separately from the basic contributions on the spreadsheet.
- For those authorities who submit a text file please note that the specification has been amended to include AVC contributions. These should be shown in fields 944 to 954 of the text file – see Appendix 1 for the full specification.

If your software cannot be amended then please provide the AVCs on a separate spreadsheet. The information required is detailed in Appendix 3 or alternatively download a copy of the spreadsheet (AVC details) from the 'annual return information' under the Employers' section of our website. Please note the information that must be included and it must be in the order shown.

3. Casual Employees with Mutuality of Obligation – recording of hours worked

An additional spreadsheet must be completed for all such employees within your organisation. If you requested a pre-populated spreadsheet there will be an additional tab within this labelled "Mutuality of Obligation E'ees". Please complete this sheet detailing the hours the employees worked in these posts and also the hourly rate

at 31 March 2013 for each employee.

For those authorities that submit their return by text file, a spreadsheet will be sent out separately and should be completed as detailed above. Please note this spreadsheet will be password protected so you should check that your email system can accept encrypted attachments. When completed, please return to annualreturns@nilgosc.org.uk.

4. Reconciliation Sheet

A reconciliation sheet is a spreadsheet used to ensure that the total monthly contributions sent to NILGOSC during the year match the total stated on the annual return submission. If these totals do not match then you must explain the reason in the comments box of the reconciliation sheet.

A blank reconciliation sheet is provided as an additional tab within both the pre-populated and alternative spreadsheets.

For those employers that submit their return by text file a copy of the reconciliation sheet is available for download from the Employers' section of our website under Annual Return Information.

5. Summary and Deadlines

- Manual returns will NOT be accepted.
- There are only three options for the submission of the 2012/2013 annual return (text file, pre-populated spreadsheet or alternative spreadsheet).
- Pre-populated spreadsheets must be requested by **19th April 2013**.
- A copy of the alternative spreadsheet, guidance for the completion of the pre-populated spreadsheet and the text file layout can be found under 'Annual Return Information' in the Employers' section of our website.
- All annual returns must be accompanied by a completed reconciliation sheet and a mutuality of obligation spreadsheet (if applicable).
- Additional Voluntary Contributions must be included in the text file or submitted on the relevant spreadsheet.
- All returns must be sent to annualreturns@nilgosc.org.uk by **31st May 2013**.
- As the returns contain personal data they should be sent to NILGOSC in a secure format to ensure that you meet your obligations under the Data Protection Act.
- Our IT department can be contacted on 0845 308 7345 or by email at annualreturns@nilgosc.org.uk for further assistance.

6. Reminder of Banded Contribution Rates

The table below is a reminder of the contribution rates applicable for the ranges of pay for the current year and next year.

Appendix 2 – Annual Return Pre-populated Spreadsheet

This is an annual return spreadsheet which has been partially completed by NILGOSC to list your employees and their details.

In the majority of cases you will only need to enter your employee's pay and contribution details.

This is a valuable tool to allow you to reconcile your employee records with those held by NILGOSC, i.e. part-time records, variable hour employees etc.

Data provided by NILGOSC

All members who have been active in your authority during the year are listed alphabetically and the following information from our records is displayed:

- National Insurance Number (read only)
- Member Number (NILGOSC reference number) (read only)
- Surname (read only)
- Forename (read only)
- Date of birth (read only)
- Location Start (date commenced with employer) (read only)
- Location Number (this is your employers reference number on our records (read only)
- Part-time indicator. This will be a "Y" if part-time, "C" if mutually of obligation employee, "V" if variable and will be blank if whole-time.

- Date left Pensionable Service. If we have been notified the member has left during the year, the date of leaving will be shown here.

- Employer's Pay No.(Staff number)
- Employer's Dept. Number/Location

- Current Part-time hours (read only)

If any of the **read only** details have changed, please enter the changes in the **Comments** column.

Member data to be completed by employer

Member Data to be completed	Summary
Actual Remuneration	This is the salary rate at the 31 March 2013 and must be equivalent to a full year's pay. It must not be enhanced to the full-time equivalent figure for part-time employees. This figure is used for the Annual Pension Forecasts and is not used for any other purpose.
Pensionable Remuneration	This is the actual pensionable pay earned by the employee during the financial year. It must not be enhanced to the full-time equivalent figure for part-time employees. It should include any arrears paid.
Additional Contributions	If the member is paying additional contributions to buy additional membership or additional pension, the amount deducted in the year should be shown here. DO NOT enter Additional Voluntary Contributions (AVCs) here. They should be shown separately.
Employee Contributions	This is the amount of basic contributions deducted for the employee during the financial year. It must not include AVCs or Additional Contributions. Where the employee has had more than one contribution rate during the year, the different contribution rates and the dates applicable must be shown as well as the amount of employee contributions paid at each rate.
End of Year Contribution Rate 1	This should be the employee contribution rate at 31 March 2013. If the member has been on the same contribution rate for the whole year this will be the only column where you need to enter an employee contribution rate.
Contribution 1 Amount	This should be the amount of employee contributions paid at the rate which applied at the end of the year (31 March 2013). If the member has been on the same contribution rate for the whole year then this will be the total amount of employee contributions for the year.
Contributions 2 End Date	If the member changed contribution rates during the year you should enter the date that the first rate ceased here e.g. if it ceased on 30 th June enter 30062012.
Contributions 2 Amount	Enter the amount of contributions paid during the year at the earlier contribution rate e.g. If the member changed to a new rate on 01/07/2012 then this is the amount relating to the period 01/04/2012 to 30/06/2012.
Contribution 2 Rate	This should be the second rate of contributions that applied if the member changed rates during the year e.g. if changed to 5.8% you should enter 5.8. Any further contribution rates should be entered in the same way up to a maximum of four changes in rates.
Next Year's Contribution Rate	This should be the contribution rate you have allocated to this member as at 01 April 2013.
Employer Rate	This should be the rate of employers contributions paid during the last year e.g. if the rate is 19%, you should enter 19.0.
Employer Contributions	This the amount of employer pension contributions paid during the financial year.
Prudential AVCs	Any additional voluntary contributions paid to the Prudential during the financial year must be listed here.
Equitable Life AVCs	Any additional voluntary contributions paid to Equitable Life during the financial year must be listed here.
Comments	Please enter any information in this column that will help to explain any changes to the member's record e.g. if they had periods of half pay, maternity, pay arrears etc.

New Records

If any LGPS (NI) member is missing from your spreadsheet, please add their details to the bottom of the spreadsheet. Please also complete and forward an Employee's Membership Form LGS1 for each of these entries.

Ceased Membership

If any of your employees have left the scheme and you have yet to inform NILGOSC please complete a Leavers Form, LGS15, and input their leaving date in the "Date left Pen Serv." column.

Reconciliation Sheet

The reconciliation sheet must be completed and submitted with your annual return.

Sample Spreadsheet

A sample spreadsheet, showing some example members and their data, is available in the Employers' section on our website.
