

Member Transferred

within the Education Authority

Please complete this form in block capitals and in black ink.

This form must be completed when a member transfers from one Education Authority region to another e.g. a member is promoted within the Education Authority and moves from the Western region payroll to the South Eastern region payroll. You should not complete an LGS15 and an SS1 as all movements such as this are within the same employing authority and the member's pension record will be continuous. If a member is leaving the employment of the Education Authority an LGS15 should be completed as normal.
